The District Superintendent of Police, Bellary and the District Forest Officer Anantapur to whom the estimates were sent for countersignature have now made references to their superiors for sanction and slight modifications in the estimates. The District Superintendent of Police finds the provision of fans in the estimate unnecessary. He is also examining the possibility of electrifying the Hospet Taluk Police Station. He has addressed the Inspector-General of Police in the matter. I am awaiting receipt of estimates in the final form from these officers and I shall submit all the estimates in one batch as soon as they are received in this office.

Sir,

ENCLOSURES: Buildings - Government - Hospet taluk and town - electrification - estimates and plans - submitted.

1143-37 Ref: Board's E. No. 600/36-1 dated 29-1-1937 and the subsequent reminders thereon dated 1-5-1937 and 23-6-1937.

SPARE COPIES

In my reference R.O.C No. 5988/36 B-1 dated 18-1-1937, I had submitted plans and estimates for electric installation in the several Government buildings in the Hospet Town. References made to the heads of the offices noted in the margin show that the electric installation proposed by the Electrical Engineer is not necessary in as much as the clerks in those offices do not habitually work after dark. The District Superintendent of Police, Bellary to whom a reference was made about the electric installation in the Town and Cusba Stations and in the office of the Inspector of Police at Hospet, says that the arrangements for electric fans will have to be omitted from the estimates as ordered by the Inspector-General of Police and that revised estimates for lights alone would be sent shortly after necessary funds are provided in the final list of demands for Police Minor Irrigation Works in the civil works estimate for 1938-39. As this will take sometime,

Forest Range office.

P.W.D. Sub Divisional office.

District Munsiff's office.

Sub Registrar's office.

I have not submitted estimates and plans in respect of these items. As regards electric installation in the Range office at Hospet the District Forest Officer, Anantapur says that the Conservator of Forests, Bellary is not in favour of it. The question of electrification of the Range office will be dropped finally.

2. The estimates and plans in respect of the marginally noted offices are submitted herewith after countersignature as required. The Excise Inspector reports that the clerks in his office work after sunset habitually. The clerks in the offices of the Sub Collector, Tahsildar and Stationary Sub Magistrate will be obliged to work after sunset continuously for about two months in a year at the time of Jamabandi and occasionally during the remaining part of the year. Electric lights are quite essential in the subjail.

SECY 25 SEP 1937

BOARD OF REVENUE 25 SEP 1937 MADRAS

It is observed that the estimate for electric installation for the uk Office at Hospet provides for 1 light in the Treasury and 4 fans in the remaining portion of the building. It is not clear how a few fans can be of use to clerks working in the office after dark during seasons of heavy work such as the Jamabandi period etc. or how the one light in the Treasury will help them much.

2. Hospet should not be hot for long in the year and it appears that the provisions made for fans is somewhat liberal; also the number of sub jail lights to burn all night could be limited since others can be switched on and off for guard inspection purposes.

3. The Board of Revenue is requested to have the whole scheme re-examined carefully in the light of the above remarks and submit revised proposals.

SECY. 20 JUN

Buildings - Bellary District - Hospet - Government Buildings - Electric installation - Proposals - Board's Ref.E. No.600/37-6, dated the 22nd April 1938.

Certain modifications have been suggested and information on some points is required with reference to the proposal for the electrification of the undermentioned offices in Hospet, in the Bellary District.

(1) The Sub Collector's Office. A ceiling fan has been proposed for the Head-clerk's room. It has been suggested that a table fan will be adequate.

(2) The Sub Magistrate's office. A ceiling fan has been proposed for the "clerks' room" in this office. It is presumed that only one or two clerks work in the room. If so, the necessity for a fan in this room has not been established clearly. It is not usual to provide fans in rooms in which only a lerk or two work.

2. The Board of Revenue is requested to offer its remarks on the suggestions referred to in paragraph 1 above and to submit revised estimates and comparative statements, cutting down the initial and recurring expenditure to the lowest figures possible.

3. The Board is also requested to report

(1) the number of clerks working in the main room for clerks in the Taluk office and the number working in the room adjoining the record room,

(2) the number of clerks working in the "clerks' room" in the office of the Sub Magistrate, and

(3) why a light has been proposed for the record room in the Stationary Sub-Magistrate's office when no lights have been proposed for the record rooms in the taluk and Sub-Collector's office

Buildings - Government -(Bellary)- Hospet taluk- and Town - electrification of Government Offices- report - Submitted.

Ref:- Board's Ref. E.No.600/37-8, dated 4-7-38.

SPARE COPIES 1

I inspected the Sub-Collector's Office, the Stationar Sub Magistrate's Office and the Taluk Office at Hospet. I offer the following remarks and suggestions:-

Para 1 (1) of Government Memo:-

A table fan will suffice for the Head Clerk's room of the Sub-Collector's Office.

Para 1 (2) of Government Memo.

The clerk's room of the Stationary Sub Magistrate' Office has to accommodate four persons, three clerks and one copyist. It will be very sultry during summer and a ceiling fan is therefore, necessary.

ara 3-1 of Government Memo.

Seven clerks are working in the main room for cler .n the Taluk Office and four clerks in the other room adjoining the record room.

Para 3 (2) of Government Me

Three clerks and one copyist are working in th clerk's room of the Stationary Sub Magistrate's Office.

Para 3 (3) of Government Memo.

There is no private room for the use of the Stationary Sub Magistrate' in his office and he is using a portion of the record room for this purpose. Hence a light has to be provided for in the record room. In this connection, I submit that the provision of lights in the record rooms of all the three offices referred to above, is really necessary, as records have to be taken out of the record room, even after night fall on several accasions.

Taking into consideration that the inital and the recurring expenditure have to be cut down to the lowest figure possible, I would suggest the following modifications.

TALUK OFFICE. Wall plugs may be provided in the Inspector's room (now used as Tahsildar's room) and in the record room with one table light to serve better. A light is essential in the Tahsildar's room, as the Tahsildar has to work often after sun-set. A table light is the most suitable form for record room, as it is impossible owing to the obstruction given by the racks, to place a ceiling light so as to illuminate all parts of the room properly.

SUB-MAGISTRATE'S OFFICE. Wall plugs may be provided for the record room and for the light over the Magistrate's dais in his Court room with one table light to serve both.

SUB- COLLECTOR'S OFFICE. Wall plugs may be provided for the light over the Sub Divisional Magistrate's Dais and for the record room with one table light to serve both. The provision of a light in the passage may be omitted. Only one fan is enough in the clerk's room, as it is a small one. table fan can be used for the Head Clerk's room, as stated above.

I would further suggest that there is little point in installing fans at present, as current is only available from 4 P.M. It would be better, however, to do as much as possible of the wiring now, so that they can be easily instal[illegible]

easily installed later on when current becomes available in day time.

I am addressing the Electrical Engineer'Madras for sending revised estimates and comparative statements in the light of the above suggestions.and I shall submit them soon after their receipt from him.

I submit herewith revised estimated, plans and comparative statements received from the Electrical Engineer, Madras, duly countersigned. In the light of experience gained in checking similar comparative statements in the Public Works Department Secretariat I consider that 1000 as far too high a figure for average hours per light per annum in the Taluk office Excise Inspector's office. It could safely be reduced to 500 or even less with a corresponding reduction in the total extra cost. Provision for fans and the wiring connected with them has not been made in the present estimates as current is not available till 4 P.M. Buildings - Bellary district - Hospet - Town and Taluk Police Stations - Electrification.

I have the honour to forward herewith for the approval of the Government plans and two estimates for Rs.180 and Rs.120 for the electrification of the Taluk (Cusba) and Town Police Stations respectively at Hospet in the Bellary district.

2. Work in these stations has to be carried on habitually after dusk and the provision of electrical installations therein is, I consider, necessary.

3. The proposal involves an additional expenditure of Rs.173/- per annum (Rs.70/- in the case of Hospet Taluk (Cusba) Police Station and Rs.103/- in the case of Hospet Town Police Station) - vide comparative statement of cost attached to the Estimates.

4. The work will be carried out by the Public Works Department and the cost met from the lump sum grant for Police Minor works in the Civil Works Estimate for 1938-1939.

The Coll. has offered his

Remarks on all the points raised in the Govt. memo at p. 43 cf. He has also submitted revised plans and estimates making provision for installation of electric lights only. He suggests that there is little point in installing fans at present as current is available only from 6 p.m. It is submitted that it would be clean and more convenient to have the fans also as soon as wiring is complete, though the fans cannot be used at present. The Govt. have remarked in their memo at p. 43 cf., that capital and recurring expenditure should be cut down to the lowest figures possible. The Collr. may therefore be asked to resubmit the original plans and estimates returned to him and to submit with the B/s Report at p. 45 cf. / after he revised plans & estimates for provision of both ~~revised if necessary with reference to his letter~~ lights & fans, as proposed in his letter at pp. 47-49 cf.
